OTCXN Signs Leading European Crypto Investment Solutions Provider

San Francisco, CA – January 17, 2019 -- OTCXN, a blockchain-powered capital markets infrastructure company today announced that TokenSuisse, a leading European provider for Crypto Asset investment solutions, has joined the OTCXN network. TokenSuisse’s mission is to provide investors with simple access to the world of Blockchain and Crypto Technologies.

“We are very pleased to see TokenSuisse join our network. Having a strong European provider of Crypto Asset investment solutions is a testament to our global reach and commitment to the European digital asset community as a whole. We look forward to supporting TokenSuisse in providing the safest access to the deepest institutional liquidity and the best execution,” said Rosario M. Ingargiola, CEO and Founder of OTCXN.

“The cooperation with OTCXN and its platform gives us access to a wide range of global liquidity providers with a single collateral account at a custodian, allowing us to serve our clients even better. Also, the integration of global banks, the trades procedures and the related settlement process can be accelerated massively, which is a huge improvement of client services,” said Claudio Rossi, COO of TokenSuisse.

This week, OTCXN is soft launching its high-performance matching engine, LiquiMatch, as both a Dark Pool and Lit Central Limit Order Book hybrid ECN for cryptocurrencies. Clients on the network will be able to trade on liquidity across all OTCXN trading platforms, including the existing OTC Block Trading venue, via a single collateral account at their preferred custodian. In addition to handling native dark and lit orders, LiquiMatch aggregates market makers’ streaming executable quotes, as well as external exchange liquidity, all of which is tradable without a direct financial relationship with each counterparty or placing assets at the underlying exchanges.

About TokenSuisse

TokenSuisse is a dynamic and innovative Crypto Asset Investment Manager with the mission to provide simple access to the world of Blockchain Assets for institutional and individual investors. TokenSuisse can offer comprehensive solutions and access for investments in Blockchain Assets through traditional investment products. TokenSuisse enables the investor to participate in this new investment universe by providing professional tailor-made advisory solutions. TokenSuisse was founded in July 2017 by experienced financial markets professionals with considerable expertise in the field of Crypto Assets and Blockchain Technology.

About OTCXN

OTCXN is a capital markets infrastructure company using asset digitization, proprietary blockchain technology, real-time collateral management and an array of institutional trading platforms to organize global liquidity and make it tradable via a single account at a custodian on the network. OTCXN has developed the first technology platform that eliminates counterparty and settlement risk without the use of balance sheet and credit, and without becoming a counterparty to transactions.
