

OTCXN Signs Australia's Largest Crypto Exchange Independent Reserve

*First Regulated Australian Crypto Exchange
Goes Live on OTCXN*

San Francisco, CA – January 14, 2019 -- OTCXN, a blockchain-powered capital markets infrastructure company today announced that Independent Reserve, the largest and first regulated cryptocurrency exchange in Australia and New Zealand, has joined the OTCXN network. Independent Reserve seeks to bring institutional order flow to its exchange to increase liquidity for its growing client base.

“We are excited to have Independent Reserve as the first exchange to go live on our network. Their forward-thinking management team was quick to see the benefits of joining OTCXN, where Independent Reserve’s order book is tradable by any institutional client on OTCXN’s global network without holding assets at the exchange. OTCXN brings exchanges the deepest institutional liquidity, increasing trading volume and ultimately increasing revenues and improving client execution,” said Rosario M. Ingargiola, CEO and Founder of OTCXN.

“Independent Reserve is excited to be part of OTCXN’s deep liquidity pool and the unique settlement solution the network provides. OTCXN’s aggregated access to key market participants and the ability to mitigate counterparty settlement risk, are significantly valuable when providing liquidity to our growing institutional client base,” said Marcus Ochmann, Head of Trading.

This week, OTCXN is soft launching its high-performance matching engine, LiquiMatch, as both a Dark Pool and Lit Central Limit Order Book hybrid ECN for cryptocurrencies. Clients on the network will be able to trade on liquidity across all OTCXN trading platforms, including the existing OTC Block Trading venue, via a single collateral account at their preferred custodian. In addition to handling native dark and lit orders, LiquiMatch aggregates market makers’ streaming executable quotes, as well as external exchange liquidity, all of which is tradable without a direct financial relationship with each counterparty or placing assets at the underlying exchanges.

About Independent Reserve

Established in 2013, Independent Reserve is an Australian institutional grade cryptocurrency exchange with an orderbook enabling clients to securely trade, invest and hold digital currencies. Independent Exchange’s mission is to provide a pro-regulation platform with the highest security to access cryptocurrencies. For additional information, visit www.independentreserve.com.

About OTCXN

OTCXN is a capital markets infrastructure company using asset digitization, proprietary blockchain technology, real-time collateral management and an array of institutional trading platforms to organize global liquidity and make it tradable via a single account at a custodian on the network. OTCXN has developed the first technology platform that eliminates counterparty

and settlement risk without the use of balance sheet and credit, and without becoming a counterparty to transactions. For more information, visit www.otcxn.com and @OTCXN.
