

OTCXN Signs International Crypto Broker OSL

*Asia's Largest OTC Digital Asset Brokerage
Joins as Core Liquidity Provider*

San Francisco, CA – January 7, 2018 -- OTCXN, a blockchain-powered capital markets infrastructure company is pleased to announce that OSL, the largest OTC digital asset brokerage company in Asia-Pacific, has joined the OTCXN network. OSL is now a Core Liquidity Provider in cryptocurrencies for OTCXN's rapidly expanding institutional client base.

"We are extremely pleased to have OSL join our network as a Core Liquidity Provider. Having a major market participant like OSL providing liquidity on our network is a testament to the strength of our core value proposition – eliminating trading counterparty and settlement risk. The presence of key market participants like OSL accelerates market adoption and expansion of the OTCXN network to reduce risks and efficiently scale crypto trading across the entire ecosystem. We look forward to working closely with OSL to serve our mutual clients," stated Rosario M. Ingargiola, CEO and Founder of OTCXN.

"At OSL we are looking forward to enjoying the important benefits of the OTCXN network, one of the most impactful institutional infrastructure solutions that the crypto currency ecosystem requires to scale. As we continue to grow our business globally, we welcome the elimination of counterparty and settlement risk that OTCXN brings, along with increased capital efficiency and collateral safety," said Ryan Rabaglia, Head of Trading for OSL.

In early Q1, OTCXN will be launching its high-performance matching engine, LiquiMatch, as both a Dark Pool and Lit Central Limit Order Book hybrid ECN for cryptocurrencies. Clients on the network will be able to trade on liquidity across all OTCXN trading platforms, including the existing OTC Block Trading venue, via a single collateral account at their preferred custodian. In addition to handling native dark and lit orders, LiquiMatch aggregates market makers' streaming executable quotes, as well as external exchange liquidity, all of which is tradable without a direct financial relationship with each counterparty or placing assets at the underlying exchanges.

About OSL

OSL is the largest OTC digital asset brokerage in Asia-Pacific and manages the buying and selling of all major cryptocurrencies trading 24 hours a day, 7 days a week with clients in more than 50 countries worldwide, including financial institutions, family offices and high-net-worth individuals.

About OTCXN

OTCXN is a capital markets infrastructure company using asset digitization, proprietary blockchain technology, real-time collateral management and an array of institutional trading

platforms to organize global liquidity and make it tradable via a single account at a custodian on the network. OTCXN has developed the first technology platform that eliminates counterparty and settlement risk without the use of balance sheet and credit, and without becoming a counterparty to transactions.
